

# Environmental Impact Assessment with additions

## Index

---

### Chapter 1

---

1	General	1-1
1.1	Project identification	1-1
1.2	Identification of the landowner	1-1
1.3	Presentation of the team for environmental impact assessment	1-1
1.4	Environmental impact assessment in the project development	1-2
1.4.1	Pre-engineering	1-3
1.4.2	Detail engineering design and construction	1-3
1.4.3	Commissioning, start-up and subsequent operation of the plant	1-4
1.5	The objectives and structure of the document	1-5

### Chapter 2

---

2	Legal and normative references	2-1
2.1	Uruguayan laws and norms	2-1
2.2	Degrees of the department of Río Negro	2-8
2.3	Commission of Río Uruguay	2-10
2.4	International laws and norms	2-14

### Chapter 3

---

3	Location and description of the project area and construction project	3-1
3.1	Location of the project area <a href="#">see also</a> <a href="#">Informes adicionales 4, Free Trade Zone</a>	3-1
3.2	Description of the site and immediate vicinity	3-3
3.3	Construction project	3-5
3.3.1	Site preparation and port construction <a href="#">see also</a> <a href="#">Informes adicionales 1, Anexo I</a> <a href="#">Informes adicionales 2, Chapter 7</a> <a href="#">Informes adicionales 6, Chapter 4</a> <a href="#">Informes adicionales 7, Chapter 5</a>	3-5

3.3.2	Sequence of the construction of infrastructural objects	3-8
3.3.3	Characterisation of the air and water emissions during the construction	3-9
3.3.4	Possible accidents during the construction	3-11

## Chapter 4

---

4	Description of the pulp mill operations	4-1
4.1	General	4-1
4.1.1	Mill manning	4-2
4.2	Kraft pulping, general description <a href="#">see also Informes adicionales 1, Chapter 3</a>	4-3
4.2.1	Wood handing	4-7
4.2.2	Fibre line	4-7
4.2.3	Recovery line	4-9
4.2.4	Mill cycles	4-14
4.3	Raw materials and transportation	4-15
4.3.1	Wood	4-15
4.3.2	Chemicals	4-18
4.3.3	Water	4-22
4.3.4	Energy <a href="#">see also Informes adicionales 3, Chapter 6</a> <a href="#">Informes adicionales 5, Chapter 5</a>	4-26
4.4	Process description and environmental mitigation	4-29
4.4.1	Wood handing	4-29
4.4.2	Cooking, washing, screening and oxygen deslignification	4-30
4.4.3	Bleaching and bleaching chemicals preparation	4-36
4.4.4	Drying	4-43
4.4.5	Evaporation and recovery boiler	4-44
4.4.6	Recausticizing and lime kiln	4-51
4.4.7	Steam, condensate, feed water and cooling water systems	4-54
4.4.8	Water and effluent treatment, spill handing <a href="#">see also Informes adicionales 6, Chapter 3</a>	4-54
4.4.9	Odorous gas and flue gas systems <a href="#">see also Informes adicionales 2, Chapter 6</a>	4-64
4.4.10	Handing of solid waste <a href="#">see also Informes adicionales 2, Chapter 10</a> <a href="#">Informes adicionales 7, Chapter 6, 7, 10</a>	4-80
4.4.11	Noise sources	4-87
4.4.12	Handling of incoming and outgoing flows in the port	4-88
4.4.13	Auxiliary systems	4-89
4.4.14	Optional systems <a href="#">see also Informes adicionales 2, Chapter 11</a> <a href="#">Informes adicionales 3, Chapter 7</a> <a href="#">Informes adicionales 5, Chapter 6</a> <a href="#">Informes adicionales 7, Chapter 2</a>	4-89

4.5	Products and transportation	4-92
4.5.1	Product description	4-92
4.5.2	Transportation of pulp	4-95
4.6	Emissions y discharges	4-96

## Chapter 5

---

5	Characterization of the existing environment	5-1
5.1	General	5-1
5.2	Physical and chemical environment	5-1
5.2.1	River Uruguay	5-2
5.2.2	Small rivers	5-48
5.2.3	Ambient air	5-55
5.2.4	Noise	5-77
5.2.5	Soil	5-82
5.2.6	Groundwater	5-96
5.3	Biological environment	5-119
5.3.1	Flora	5-119
5.3.2	Fauna	5-143
5.3.3	River biology	5-199
5.4	Human environment	5-212
5.4.1	Population	5-212
5.4.2	Activities	5-217
5.4.3	Use of soil	5-225
5.5	Symbolic environment	5-231
5.5.1	Landscape	5-231
5.5.2	Archeological sites	5-245
5.5.3	Cultural and historical sites	5-264

## Chapter 6

---

6	Identification and evaluation of the impacts	6-1
6.1	General	6-1
6.2	Possible impacts in the physical and chemical environment	6-1
6.2.1	River Uruguay	6-1
	<a href="#">see also</a> <a href="#">Informes adicionales 1, Chapter 4</a>	
	<a href="#">Informes adicionales 2, Chapter 2, 4</a>	
	<a href="#">Informes adicionales 5, Chapter 2</a>	
	<a href="#">Informes adicionales 6, Chapter 8</a>	
	<a href="#">Informes adicionales 7, Chapter 3, 9</a>	
6.2.2	Small rivers	6-20

6.2.3	Ambient air <a href="#">see also</a> <a href="#">Informes adicionales 2, Chapter 2, 4</a> <a href="#">Informes adicionales 3, Chapter 1, 2</a> <a href="#">Informes adicionales 5, Anexo I-VI</a> <a href="#">Informes adicionales 7, Chapter 1</a>	6-22
6.2.4	Noise <a href="#">see also</a> <a href="#">Informes adicionales 7, Chapter 11</a>	6-38
6.2.5	Soil	6-50
6.2.6	Groundwater <a href="#">see also</a> <a href="#">Informes adicionales 6, Chapter 6</a> <a href="#">Informes adicionales 7, Chapter 10</a>	6-55
6.3	Possible impacts in the biological environment	6-62
6.3.1	Flora	6-62
6.3.2	Fauna	6-64
6.3.3	River biology <a href="#">see also</a> <a href="#">Informes adicionales 5, Chapter 2</a> <a href="#">Informes adicionales 6, Chapter 8</a>	6-65
6.4	Possible impacts in the human environment <a href="#">see also</a> <a href="#">Socio-economical report, June 2004</a> <a href="#">Informes adicionales 2, Anexo</a> <a href="#">Informes adicionales 5, Anexo XI</a> <a href="#">Informes adicionales 6, Chapter 1</a> <a href="#">Informes adicionales 7, Chapter 4</a>	6-80
6.4.1	Population	6-80
6.4.2	Activities	6-81
6.4.3	Use of soil	6-85
6.5	Possible impacts in the symbolic environment	6-85
6.5.1	Landsscape	6-85
6.5.2	Archeological sites	6-90
6.5.3	Cultural and historical sites	6-94
6.6	Summary of the impacts and available standars	6-104
6.6.1	Physical and chemical aspects of the environment	6-104
6.6.2	Impact on the biological environment	6-110
6.6.3	Impact on the human and symbolic environment	6-113
6.6.4	Socio-economical impacts	6-116
6.6.5	Conclusions	6-117

## Chapter 7

---

7	Measures to mitigate and prevent risks and contingences	7-1
7.1	Mitigation measures to decrease and prevent impacts	7-1
7.2	Plans to prevent risks and contingences	7-2
7.2.1	Possible accidents with impact in the environment	7-2
7.2.2	Major types of industrial accidents in pulp mills	7-4

7.2.3	Evaluation of the worst case scenario of the accident	7-5
7.2.4	Description of the worst case scenario in the landfill	7-5
7.2.5	Spill prevention	7-6
7.2.6	Safety systems and plans for possible emergency situations	7-11
	<a href="#">see also</a> <a href="#">Informes adicionales 2, Chapter 5</a>	
	<a href="#">Informes adicionales 7, Chapter 12, river transportation</a>	
7.3	Measures to compensate	7-11
	<a href="#">see also</a> <a href="#">Informes adicionales 7, Chapter 13</a>	
7.4	Environmental management plan	7-12
7.5	Plans for abandoning if necessary	7-12
	<a href="#">see also</a> <a href="#">Informes adicionales 6, Chapter 9</a>	
	<a href="#">Informes adicionales 7, Chapter 8</a>	

## Chapter 8

---

8	Plan for environmental control and management	8-1
	<a href="#">See also</a> <a href="#">AAP (=Environmental permit)</a>	
8.1	Environmental control and monitoring	8-1
8.1.1	Monitoring of the effluent treatment	8-5
8.1.2	Monitoring Río Uruguay	8-7
8.1.3	Monitoring process air emissions	8-9
8.1.4	Monitoring ambient air	8-9
8.1.5	Groundwater monitoring	8-10
8.1.6	Soil monitoring	8-11
8.1.7	Monitoring in plantations	8-12
8.2	Environmental management and auditing	8-12
8.2.1	Evaluation of the importance of the posible impacts, forecast methods applied and their credibility	8-12
8.2.2	Complex of technical and organisational mitigation in the company	8-14
8.2.3	Project environmental policy and targets	8-16
