

4 THINGS YOU DIDN'T KNOW ABOUT IFC,

THE PRIVATE SECTOR ARM OF THE WORLD BANK GROUP

46%

Last year, climate finance investments accounted for 46% of IFC's own-account commitments.

INTEGRATED OFFERING

IFC is the only global private sector development bank with the capacity to create a pipeline of climate investment projects, de-risk these opportunities, and mobilize private capital **at scale**.

CO₂ 11.5 MILLION

The total quantity of carbon emissions IFC helped developing countries avoid last year, the equivalent of taking 3 large-scale coal power plants off the grid.

22.5 GW

IFC has financed more than 22 gigawatts of affordable renewable energy in emerging markets - the installed renewable power capacity of Austria (source: IRENA)
