

***Title: Request to Ministry of Environment Regarding Relocation of PS ADC Pumping Station in the National Conveyor Project***

Date: 15/10/2024

To: His Excellency, the Minister of Environment

Ministry of Environment

Amman – Hashemite Kingdom of Jordan

Project: Aqaba–Amman Desalination and Water Conveyance Project (National Conveyor)

Subject: Change of Location for the PS ADC Pumping Station in Amman Development Corridor

Greetings,

With reference to the above-mentioned project and the letter from the Ministry of Environment No. 2387/07/04 dated 2022/03/17 regarding the conditional approval of the Environmental and Social Impact Assessment (ESIA) for components of the project located outside the borders of the Aqaba Special Economic Zone, and based on the decision by the Ministry of Water and Irrigation, the location of the PS ADC pumping station in the Amman Development Corridor has been changed.

Attached is a KMZ file showing the previous and updated locations of the pumping station, in addition to the path of the branch transmission pipelines. We kindly request that you provide us with your requirements based on the proposed modifications, in order for us to proceed accordingly.

With utmost respect,

Eng. Haitham Awad  
Project Manager

Eng. Wael Zureikat  
Director of Works Unit / Water and Environment

Attachments: KMZ file showing the old and new locations of the pumping station, and the path of the branch pipelines.
