TRAINING ON GENDER AND HYDROPOWER III

ABOUT THE ORGANIZERS

This training will showcase international knowledge introduced by the IFC led Powered by Women Nepal. The training will highlight case studies from the hydropower sector in South Asia, particularly the challenges and opportunities of incorporating gender into the development process. Attendees will learn about the benefits of integrating gender in different phases of hydropower development and the importance of gender-sensitive planning and implementation.

The Training will focus on:

- Codes of Conducts to address Sexual Abuse and Harassment in the workplace
- Case of ICE: Bridging the Gap for Gender Equality- Due Diligence
- Interactive Poll
- Group Discussion: Risks and Opportunities of considering Gender in land acquisition and involuntary resettlements?
- Interactive Poll and Closing of the Day
- A panel discussion on women in non-traditional roles from different industry practices (GIIP) and interactive exercises.

The training will lead to more integration of knowledge into implementation practices using case studies and group exercises. Attendees will gain a deeper understanding of the importance of gender in hydropower development and how to incorporate it into their work.

The training will be held at Chandragiri Hills Resort, Thankot, Kathmandu, from 13 to 16 March 2023. Registration is required by both ICH and IFC.
