

IFC's Transport Innovation Platform for Sustainability (TRIPS) is a one-stop shop that empowers transport operators with customized advisory and investment solutions to accelerate sustainability goals and meet financing needs, either at the corporate or asset level. The platform also serves as a global network for industry players to connect, share experiences, and exchange ideas.

A HOLISTIC APPROACH TO SUSTAINABILITY

IFC leverages its global capabilities in financing and advising transportation operations—such as ports, airports, roads and railways—to help clients in emerging markets develop resilient, efficient, safe and inclusive transport projects, systems and companies.

Mitigation

Reduces GHG emissions

Adaptation

Adjusts to climate impact

Efficiency

Leverages digitalization and innovation

Safety

Enhances safety for users

Universal Accessibility

Enables accessibility through universal design

Gender

Incorporates perspectives and travel needs of women

TAILORED ADVISORY OFFER

IFC offers a wide range of services, focused on identifying green technologies and solutions that can improve the sustainability of transport assets. Advice and financing can be structured at the corporate or asset level.

ACCESS TO FINANCE

Through TRIPS, IFC offers a wide range of innovative financial products to support investments in sustainable transport infrastructure and services. This includes sustainable debt—green, blue, and sustainability-linked—equity, bonds, local currency, and risk mitigation instruments.

EXCLUSIVE GLOBAL NETWORK

Members of this global network participate in peer-to-peer exchanges and exclusive learning events and workshops related to new technologies and business models—all designed to foster collaboration on implementing and scaling sustainable transport solutions in emerging markets.
