Ratings as of September 2013

*The International Finance Corporation's (IFC) Aaa rating with a stable outlook is based on its robust capital adequacy and liquidity, preferred creditor status, and strong shareholder support.*

Moody's | 19 November 2013

## TRIPLE-A RATING CONSIDERATIONS

- Strong financial profile with substantial capital and high liquidity
- Conservative statutory, risk, and management policies
- Sovereign sponsorship with fully paid-in capital
- Rated AAA/Aaa (stable outlook) by Standard & Poor's and Moody's since its first rating in 1989

## IFC AND THE US

- IFC accounts are published according to US GAAP
- Audited annual financial statements, annual report and other information is filed with the SEC
- Notes issued by IFC are not required to be registered under the US Securities Act of 1933
- IFC headquarters are in Washington, DC
- The US government is IFC's single largest shareholder
- Commensurate with its share capital, the US has the largest voting power (22%) on IFC's Board of Directors

## FINANCIAL FUNDAMENTALS

- The average internal rate of return on IFC's equity investments has exceeded 20% a year over the last 20 years
- IFC has one of the lowest ratios of debt to net worth by industry standards
- Quality loan portfolio with non-performing loans averaging around 4% of the total disbursed loan portfolio
- Duration of funding matches maturity of IFC's loan portfolio to mitigate interest rate, currency and maturity exposure
- IFC's equity investments are funded by IFC's retained earnings, not borrowings
- Strict portfolio diversification guidelines are maintained

### Loan Portfolio: Reserves & Non-Performing Loans (%)

### Portfolio Diversification Guidelines

By Company	By Risk Sector	By Country
Risk-based limits for clients and groups of connected clients	Limits on global exposure, and on key sector exposure within countries	Economic capital-based limits on country exposure

## STRONG CAPITAL MEASUREMENTS

IFC's capital adequacy thresholds are more demanding than triple-A rating requirements. Actual capital has consistently exceeded minimum capital requirements by a wide margin.

### Leverage

### Risk-adjusted capital (in billions)

### Liquidity ratio

(percentage of estimated net cash requirements for the next 3 years)
