Independent Auditor's Limited Assurance Report on a Selection of Sustainable Development Information

To the President,

In response to your request, we, EY & Associés, have performed a limited assurance engagement on a selection of sustainable development information in the annual report (the “Annual Report”) for the year ended June 30, 2020, including quantitative indicators (the “Indicators”) and qualitative statements (the “Statements”). We have selected the Indicators and Statements that were deemed to be of particular stakeholders’ interest, to involve a potential reputation risk for IFC, and/or to value IFC’s corporate responsibility, management and performance.

We have reviewed the Statements made in all the chapters of the Annual Report: “IFC Strategy in Action” (pages 14–47, with the exclusion of the “Financial Highlights” and “Operational Highlights”), “Country Stories” (pages 48–77) and “About Us” (pages 78–117), with a particular focus on impacts (including AIMM) and climate finance (including IFC’s reporting under TCFD).

The following Indicators have been reviewed:

<table>
<thead>
<tr>
<th>MATERIAL AREAS</th>
<th>INDICATORS</th>
</tr>
</thead>
<tbody>
<tr>
<td>FY20 long-term commitments by Environmental and Social category (page 43)</td>
<td>Long-term commitments ($ millions) and projects (number) by Environmental and Social category</td>
</tr>
<tr>
<td>Ex-ante AIMM scores of FY20 committed projects (page 92)</td>
<td>Average ex-ante AIMM scores by categories, regions and industries</td>
</tr>
<tr>
<td>FY20 investment in climate business (pages 113–117)</td>
<td>Own account long-term commitments in climate-related investments ($ millions)</td>
</tr>
</tbody>
</table>

IFC is responsible for:

• the preparation of the Indicators and Statements in accordance with the reporting criteria applicable during the year ended June 30, 2020 (the “Reporting Criteria”), consisting of IFC’s instructions, procedures and guidelines specific to each Indicator, a summary of which is provided in the Annual Report or on IFC's website;
• the presentation of the Statements in accordance with “IFC’s Access to Information Policy,” which is available on IFC's website¹ and the principles of relevance, completeness, neutrality, understandability and reliability as defined by international standards.²

OUR INDEPENDENCE AND QUALITY CONTROL

We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

We apply International Standard on Quality Control and accordingly maintain a comprehensive system of quality control including documented policies and procedures regarding compliance and ethical requirements, professional standards and applicable legal and regulatory requirements.

² ISAE 3000 from IFAC, Global Reporting Initiative (GRI), or AA1000 Accountability Standard.
OUR RESPONSIBILITY

Our responsibility is to express a limited assurance conclusion on the Indicators and Statements based on the procedures we have performed and the evidence we have obtained. We conducted our limited assurance engagement in accordance with International Standard on Assurance Engagements 3000 ("ISAE 3000") issued by the International Auditing and Assurance Standards Board. This standard requires that we plan and perform this engagement to obtain limited assurance about whether the Indicators and Statements are free from material misstatement. A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal controls, and the procedures performed in response to the assessed risks.

NATURE AND SCOPE OF OUR LIMITED ASSURANCE ENGAGEMENT

We performed the following procedures:

• We have assessed the Reporting Criteria, policies and principles, with respect to their relevance, completeness, neutrality and reliability.
• We have read the content of the Annual Report to identify key Statements regarding the sustainability and development areas listed above.
• At the corporate level, we have conducted interviews with more than twenty people responsible for reporting to assess the application of the Reporting Criteria or to substantiate the Statements.
• At the corporate level, we have implemented analytical procedures and verified, on a test basis, the calculations and the consolidation of the Indicators.
• We have collected supporting documents for the Indicators or Statements, such as reports to the Board of Directors or other meetings, loan agreements, internal and external presentations and reports, or survey results.
• We have reviewed the presentation of the Statements and the Indicators in the Annual Report and the associated notes on methodology.

LIMITATIONS OF OUR PROCEDURES

Our limited assurance engagement was limited to the Indicators and Statements identified in the table above and did not cover other disclosures in the Annual Report.

Our tests were limited to document reviews and interviews with head office employees. Within the scope of work covered by this report, we have not participated in any activities with external stakeholders or clients and have only conducted limited testing aimed at verifying the validity of information on a sample of individual projects.

LIMITED ASSURANCE CONCLUSION

Based on the procedures performed and evidence obtained, nothing has come to our attention that causes us to believe that:

• the Indicators have not been prepared, in all material respects, in accordance with the Reporting Criteria;
• the Statements have not been presented, in all material respects, in accordance with “IFC’s Policy on Disclosure of Information” and the principles of relevance, completeness, neutrality, clarity and reliability as defined by international standards.

OTHER INFORMATION ABOUT THE REPORTING CRITERIA AND THE STATEMENTS PREPARATION PROCESS

With regards to the Reporting Criteria and the Statements’ preparation policies and principles, we wish to make the following comment:

IFC’s methodology for calculating climate finance commitments is presented in the publicly available document “IFC’s Definitions and Metrics for Climate-Related Activities”. This methodology is aligned with the “Common Principles for Climate Mitigation Finance Tracking and for Adaptation Finance Tracking” adopted by MDBs and IDFC members. The Common Principles are currently being reviewed by MDBs, which will influence IFC’s climate finance tracking methodology and what is counted as Climate Finance.
