

Counterparty Assessment: Primary Producer

GMAP Risk Management Questions (for Red Country-Commodity Combination Scores)

Certification		
Question	Answer	Documentation
Does the portfolio company carry a certification for all of its farms? When was the certification obtained? What is the date of the most recent certification update?		
Is the portfolio company working towards application of industry-specific good management practices and available technologies in its upstream operations (e.g. Principles and Criteria of Voluntary Agro-Commodity Standards)?		
Stakeholders & Sustainability Initiatives		
Does the portfolio company have an affiliation or is it a member of a sustainability initiative that promotes sustainable industry-specific good management practices and the use of available technologies (e.g. an Agro-Commodity Roundtable)?		
Labor Compliance		
Does the portfolio company comply with relevant national labor laws, including relevant ILO Conventions, on prevention of harmful child labor and forced labor? Can the company provide documentation of such compliance from Ministry of Labor inspections?		
Does the portfolio company have a corporate and/or farm-level policy in place to prevent the use of harmful child labor and forced labor in its direct production? What is the management program (e.g. training) and technical/human resources that the portfolio company has adopted in order to ensure the policy/policies' effective implementation?		
Is the portfolio company engaging migrant workers that are usually accompanied by their families? If so, does the company provide access to relevant facilities, such as nurseries and schools?		
Does the portfolio company engage children outside the family unit which could be considered harmful child labor?		
Is the portfolio company working towards certification that includes a requirement to prevent harmful child labor and forced labor?		
Region of Production		
Is the portfolio company able to prove that its production comes from neither areas that are not protected nor the result of recent land conversion of critical and/or natural habitat?
