

IFC and Belgium

Partners in Private Sector Development

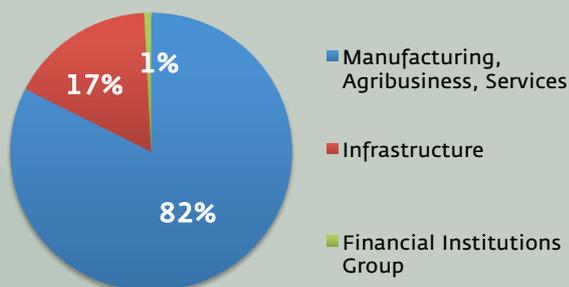

OVERVIEW

IFC, a member of the World Bank Group, is the largest global development institution focused on the private sector in emerging markets. Working in more than 100 countries, IFC committed a record \$31.5 billion in own-account investments and mobilization from third parties to private companies and financial institutions in developing countries in fiscal year 2021 (FY21). IFC partners with multinationals and mid-sized firms that are interested in investing in emerging markets. As of June 2021, IFC had a long-term committed investment portfolio of \$152 million with Belgian partners spread across several sectors and regions.

IFC's Long-Term Investment Portfolio with Belgian Sponsors

As of FY21 (ending June 2021), IFC's long-term investment portfolio with Belgian sponsors amounted to \$152 million. Belgian private sector companies have benefited from co-investments with IFC, while making notable contributions to development.

Manufacturing	110
Energy	25
Agribusiness & Forestry	16
Microfinance	1
Total	152

IFC Long-Term Investment Portfolio as of June 2021 by Region with Belgian Sponsors (\$152 million)

- Mobilization:** IFC has a strong relationship with Belgian financial institutions (FIs) and an active engagement across multiple sectors. As of June 2021, Belgian FIs held close to \$45 million in IFC Syndicated Loans.
- Global Trade Finance Program (GTFP):** As of June 2021, IFC issued over 1400 guarantees amounting to over \$1 billion for Belgian banks since the GTFP began in 2005. The most active confirming bank has been KBC.

PARTNERSHIP WITH THE GOVERNMENT AND DEVELOPMENT FINANCE INSTITUTION

IFC maintains strong relations with BIO, the Belgian development finance institution (DFI). The two institutions have common development goals and objectives and play a complementary role in emerging economies. Since August 2010, BIO has been a signatory of IFC's Master Cooperation Agreement, which streamlines lending procedures for joint investments to ease financing to private companies in emerging markets. IFC is also strengthening its collaboration with ENABEL, the Belgian development agency, in particular on upstream initiatives in the agribusiness supply-chains and forestry sectors, with a focus on Sub-Saharan Africa.

Examples of Successful Cooperation

WDP, Romania

In March 2020, IFC committed a green financing package of approximately €205 million to WDP (Warehouses De Pauw NV), a Belgian real-estate investment trust that develops, owns, acquires and manages high quality logistics, warehouses and semi-industrial property, to support the construction of around one million square meters of resource-efficient semi-industrial and logistics properties across Romania. This is IFC's first green loan in the property sector in Europe and Central Asia. IFC's investment will facilitate growth of the e-commerce, warehousing, and distribution sectors, the business process outsourcing market, as well as the automotive and retail industries in Romania. The investment will increase competitiveness and productivity, and support the country's construction industry. In addition, under the loan conditions, WDP implemented IFC's EDGE green-buildings certification across its portfolio in the country, resulting in at least 20% energy and water savings in the buildings and in the production of building materials, as well as reduction in utility costs.

Incofin, Kazakhstan

In November 2019, IFC committed a straight senior loan of up to \$4 million in local currency to Arnur Credit, Kazakhstan's third-largest microfinance institution and a leading player on the Kazakh microfinance market, which is partially owned by Incofin, a Belgian investment manager working in emerging countries. The loan is intended for on-lending to micro, small and medium enterprises (MSMEs) in Kazakhstan with a focus on agriculture and women borrowers. IFC's investment will contribute to the MSME sector competitiveness by increasing access to microfinance for local MSMEs, specifically in underserved rural areas of Kazakhstan. In addition, the project is expected to create a demonstration effect, encouraging private investment in these areas and promoting inclusiveness in the microfinance market.
