IFC's current annual funding program is US$18 billion, which the funding team raises across a range of markets and currencies. Fiscal year to date, IFC has issued 141 bonds in 18 currencies amounting to over US$12 billion.
IFC's Recent Capital Market Development Efforts

**TWIGIRE**
IFC's recent 3 year, 9%, 3.5 billion Rwandan francs issue, is the first offshore bond in Rwandan currency. The bond, called "Twigire" was placed with five international investors and will be listed in Luxembourg.

**MASALA**
IFC issued a 10-year, 10 billion Indian rupee bond. The "Masala bonds" mark the first rupee bonds listed on the London Stock Exchange. They are the longest-dated bonds in the offshore rupee markets, building on earlier offshore rupee issuances by IFC at three, five, and seven-year maturities. The vast majority of investors were European insurance companies.

Funding Team Update
IFC's funding team welcomed two new staff over the last quarter. Ben Powell heads the funding team which now comprises of five officers: Funding officers are Marcin Bill, and two new members of the team - Flora Chao and Elena Panomarenko. Esohe Denise Odaro manages investor relations, while Kenichiro Shiozawa manages Japanese investor relations and Japanese retail market transactions from Tokyo.

FUNDING HIGHLIGHTS

**Tapping Down Under**
IFC brought its first Kangaroo trade of 2015 in January with a A$500 million tap to its existing 3.25%, 2019 issue taking the total volume to A$1.7 billion. The transaction was predominantly placed with Australian investors, the majority of which were fund managers. This transaction follows on from the third tap in December 2014 of IFC's 4%, 2025 Kangaroo bond, its longest outstanding AUD bond which was originally launched in September 2014, at A$250 million. The first and second taps were for A$150 million and A$100 million, and launched in October and November 2014. IFC's total outstanding Kangaroo volume now stands at A$9.35 billion from eight individual lines.

This month, IFC returned to the Kauri market with its first issue since August 2013 and added NZ$250 million to its 3.625% 2020 Kauri bond Volume, increasing the total outstanding in to: NZ$425 million. At present, IFC has an outstanding Kauri volume of NZ$2.525 billion through six lines.

**A Floating Comeback**
After over a year of absence IFC returned to the Floating Rate Notes market issuing US$500 million of a new 3 year FRN. The trade priced at a spread of 2 basis points over 1m US$ Libor. The majority of the trade was placed with bank treasuries. This new line will be open to increases subject to market conditions and

Providing Client Solutions
Supporting the Development of Capital Markets

As part of its efforts to support the development of capital markets, IFC helps private sector companies in emerging markets to access international and domestic bond markets.

Seven Energy Bond Investment
IFC subscribed to US$50 million of notes in the inaugural bond issuances by Seven Energy International Limited, one of the few companies developing and commercializing stranded gas that is critical for expanding Nigeria's power generation. Seven Energy is Nigeria's first unlisted oil and gas company to tap the international capital markets.

Ciputra Partial Credit Guarantee
IFC provided the first ever partial credit guarantee in Indonesia to an IDR 500 Billion maiden Bond offering by Ciputra Residences. Part of the proceeds is being used to apply IFC's Green Building Standards to property developments. IFC provided a 20% partial credit guarantee, which elevated the bond's rating by Fitch Indonesia from A- to A enabling a broad base of institutional investors to invest.
