The International Finance Corporation (IFC), a member of the World Bank Group, promotes private sector investment in developing countries, which will reduce poverty and improve people's lives. It is the world's largest multilateral organization providing financial assistance directly in the form of loans and equity to private enterprises in developing countries. IFC also gives technical assistance, which will promote private sector development.

The findings, interpretations, and conclusions expressed in this book are entirely those of the authors and should not be attributed to, and do not necessarily reflect the views of, IFC, or its Board of Directors, or the World Bank or its Executive Directors, or the countries they represent. IFC and the World Bank do not guarantee the accuracy of the data included in this publication and accept no responsibility whatsoever for any consequence of their use.
