SHAPING THE FUTURE OF ADVENTURE AND CULTURAL TRAVEL
Profiles and behaviors of adventure and cultural travelers from the United States and Australia

AN INITIATIVE OF THE PACIFIC PARTNERSHIP

IN COLLABORATION WITH

Australian Aid
Creating Markets, Creating Opportunities
EXECUTIVE SUMMARY

In today’s hypercompetitive market for international travelers, a holistic and nuanced understanding of which travelers best align with destination travel offerings is necessary. A full picture of the traveler – going beyond simple identifiers such as age, income and gender – is needed in order to shape travel products and to frame and direct marketing messages precisely.

With this in mind, the International Finance Corporation (IFC) partnered with the Adventure Travel Trade Association (ATTA) on an in-depth study of adventure and cultural travelers originating in the United States of American (USA) and Australia. The countries represent two key outbound markets for international travel in general, and for the islands of the Pacific. IFC has a portfolio of tourism projects in the Pacific that support growth in high value tourism markets. In 2019, this includes Fiji, Papua New Guinea, Vanuatu, and Solomon Islands.

SPECIFIC RESEARCH OBJECTIVES

► Determine a detailed profile of the American and Australian adventure tourist and cultural tourist markets with a specific focus on their decision-making processes when selecting a holiday destination.

► Provide specific and implementable marketing and product development recommendations that can be leveraged to improve the marketing strategies of IFC’s tourism project countries (Fiji, Papua New Guinea, Solomon Islands and Vanuatu).

Detailed recommendations stemming from the second objective are confidential and not included in this public report.
KEY RESULTS

IFC and partners surveyed a total of 2,514 identified international travel consumers from USA (1,239) and Australia (1,275) through an online primary survey between April 30 and May 17, 2019. This was followed by an additional digital listening activity that evaluated 800 million social media posts.

Through analysis of demographic and attitudinal indicators and cluster analysis, the partners identified four primary consumer market segments within the respondents, with three deemed to be of higher potential to travel internationally for adventure and/or cultural purposes. The segments are based on distinct travel preferences, personal priorities and values, and future travel behavior. Combined, the three segments represent 18.8 percent of the USA and 28.9 percent of the Australian adult online consumer populations. The full methodology is included as Annex 1.

It is significant to note that the segments are consistent across nationality with few differences between USA and Australian travelers in each segment. With this realization a set of three primary segments was developed that apply to travelers from both markets. In areas where significant differences between USA and Australian travelers were apparent, this has been noted.

The three segments represent a $108.4 billion USD market size.

Spend based on market size and median spend per trip from survey responses.
ADVENTURE INTENSIVE PROFILE
Adventure intensives skew male aged 25-44, are well educated with a medium income, and are more often married and living with their spouse and children. A smaller segment of this market is the younger Millennial market, both male and female, that is young, single and living on their own.

This is the most adventurous of the three target segments and the only group willing to endure some discomfort for an interesting experience. They are also the only people who say that they want to push their limits and that winning is very important to them. They also state that they actively seek out destinations where cultures and lifestyles are different from their own.

This segment is mostly likely to do the same activity regularly and frequently. They are most likely to travel as a family with children and to book and plan all trip elements themselves.

Spend per trip based on median of survey responses

ADVENTURE INTENSIVE: PERSONALITY PROFILE

Connect with Adventure Intensives emotionally by emphasizing the opportunity to take risks and the ability to get out of their comfort zone while supporting local communities.

VIEW OF SELF

- Focused on winning: Adventure Intensive 42%, Average Traveler 27%
- Drawn to experiences with some danger: Adventure Intensive 42%, Average Traveler 27%
- Willing to take risks: Adventure Intensive 46%, Average Traveler 35%
- Want to get out of comfort zone: Adventure Intensive 56%, Average Traveler 46%
- Enjoy owning luxurious products: Adventure Intensive 42%, Average Traveler 32%

BENEFITS OF ADVENTURE TRAVEL

- Deeper contemplation of life: Adventure Intensive 4.04, Average Traveler 3.79
- Getting out of comfort zone: Adventure Intensive 4.01, Average Traveler 3.79
- Supporting local communities: Adventure Intensive 3.96, Average Traveler 3.7

BENEFITS OF CULTURAL TRAVEL

- Deeper contemplation of life: Adventure Intensive 4.11, Average Traveler 3.86
- Getting out of comfort zone: Adventure Intensive 3.85, Average Traveler 3.59
- Fun, thrill & excitement: Adventure Intensive 4, Average Traveler 3.75

Top 3 responses that differ most from average rating scores out of 5.

Average responses shown in grey throughout the report are based on an average of total survey responses.
ADVENTURE INTENSIVE: ACTIVITY PARTICIPATION

Adventure Intensives are highly motivated by adventure activities, especially Americans. They are willing to try new challenges. They like both hard and soft adventure activities and tend to do the same ones repeatedly and regularly with expert and advanced skills. Australians are more likely to engage in a few different activities.

**ADVENTURE AS PRIMARY TRIP MOTIVATOR**

- **No**
- **Yes**

**ACTIVITY EXPERIENCING**

- Usually try new activities
- Usually do just a few different activities
- Usually do the same activity

**ACTIVITY FREQUENCY**

- This was a one-off during a trip
- I do them every now and again
- I do them regularly

**ACTIVITY PARTICIPATION***

*Percentage of respondents who participated in this type of activity during a recent trip.*
ADVENTURE INTENSIVE: ACTIVITY PARTICIPATION

As with other segments, Adventure Intensives like camping and backpacking, but also enjoy harder adventure activities. Australians in particular have an affinity for kayaking/rafting, motorized sports and snorkeling. Marketing messages should show intense physical activity both on land and in water, as well as the opportunity for soft activities for balance.
ADVENTURE Intensives seek out destinations with different lifestyles than their own and want to support local communities and businesses when they travel. However, they prefer general cultural activities to immersive experiences. Marketing messages should show how cultural experiences can expand these travelers’ worldviews and demonstrate opportunities for learning from the local cultures.

**ACTIVITY PREFERENCES**

- Report significant impact of cultural activities on worldview
  - USA: 74%, AUS: 59%, AVG: 59%

- Seek out destinations with different lifestyles
  - USA: 64%, AUS: 52%, AVG: 51%

- Learned a great deal as a result of a cultural trip
  - USA: 67%, AUS: 42%, AVG: 49%

- Willing to visit a destination despite language difficulties
  - USA: 66%, AUS: 54%, AVG: 57%

- Prefer to support local communities and operators
  - USA: 62%, AUS: 47%, AVG: 49%

**ACTIVITY FREQUENCY**

- A few times a year or less
  - USA: 30%, AUS: 31%, AVG: 28%
  - 12%

- About once a week
  - USA: 18%, AUS: 28%, AVG: 27%
  - 27%

- Once or twice a month
  - USA: 16%, AUS: 24%, AVG: 29%
  - 31%
Although Americans report a higher impact of cultural activities on their knowledge and worldview, they tend to actually participate less in these while traveling. This may be due to their propensity to do cultural activities more frequently in their daily lives (see previous page), leaving them to seek different experiences during a trip. Australians have higher than average levels of engagement in immersive activities like visiting villages and meeting with indigenous people.
Adventure Intensives tend to travel with their family or in a couple, and Americans often travel with friends. As they often plan trips on short notice, they can be enticed with last-minute deals. This group also tends to book all elements individually, rather than as a package.

**BOOKING BEHAVIOR**
- Mix of the two
- Booked a package
- Booked all elements myself

**TRAVEL COMPANIONS**
- As part of a tour group
- With my family, adults only
- With friends
- On my own
- In a couple
- With my family, including children

**PLANNING HORIZON**
- More than 12 months
- 9-12 months
- 5-8 months
- 1-4 months
- 1-4 weeks
- A week or less

(time taken to finalize itinerary and book once destination selected)
American Adventure Intensives rely less on friends and family for inspiration and destination selection, instead turning to travel blogs and travel magazines. Australians mostly receive inspiration from friends/family, social media and travel review sites. Americans are more motivated by having the time and budget to visit places on their bucket list, and Australians are more motivated by good deals on airfare and accommodation.

- AUS: 17%
- AVG: 26%

- USA: 20%
- AUS: 20%
- AVG: 20%
As with other traveler segments, friends and family and review sites were the most important information sources for planning Adventure Intensives’ last trips. They can particularly be targeted through travel blogs, social media and travel magazines. Travel review sites are particularly important for Australians.
Adventure Intensives are more likely than all other travelers to take all kinds of specialized trips. These especially appeal to Americans, particularly trips with immersive experiences and multiple types of activities. For Americans, market multi-country trips, multi-generational opportunities and the culinary specialties of a destination.
This segment comprises both single Millennials and the adventurous 35-44 year-old man with his spouse and children. Millennials are somewhat more likely to use Snapchat and Instagram and somewhat less likely to use Twitter, but Facebook and YouTube are the primary channels across all age groups. When it comes to influential websites, there is less differentiation across ages with TripAdvisor dominant.

ADVENTURE INTENSIVE: RECOMMENDATIONS

Adventure Intensives love to push their limits on both adventure and cultural activities during a trip. They like to use expert guides, are eager to learn new things and seek all kinds of new experiences to expand their worldview.

GENERAL PRODUCT RECOMMENDATIONS
Adventure intensives are experienced in their adventure activities of choice and want a product that will test their abilities. A little risk, danger and discomfort is welcome. They seek:

▪ Expert guides that have technical knowledge of specific adventure activities;
▪ Technically rated and professional adventure activities that offer a challenge;
▪ Adrenaline-focused experiences that require fitness;
▪ Australia: motorized sports, off-road buggy and kayaking/white water rafting;
▪ USA: mountain climbing, road cycling, skydiving and zip-lining;
▪ Cultural activities should seek to connect travelers with local lifestyles and authentic experiences.

GENERAL MARKETING RECOMMENDATIONS

▪ Market experiences with a higher dose of adventure activity to this segment. They are keen to be challenged.
▪ Connect with them emotionally in marketing content by addressing their desire to push their limits. Highlight rugged and rustic elements, these travelers will see this as a positive element, not a negative.
▪ Use authentic images that show the destinations as peaceful, mysterious, enigmatic and unspoiled.
▪ Place marketing in social media, on blogs and National Geographic Traveler.
▪ As they are active social media users, leverage social media with a focus on Twitter for older Adventure Intensives and Instagram for younger ones.
EXPERIENCE SAMPLER PROFILE
Experience Samplers are composed of two groups. Both are slightly more female with the younger group (18-24 years old) having lower incomes and education levels and more likely to live on their own. The older group (45-54 years old) has higher incomes and education and more likely to be married and living with a spouse and possibly children.

What ties them together are that both groups are interested in learning new things and having new experiences. While they are not competitive, they have an interesting relationship to risk. Experience Samplers want to get the most out of life. They talk about taking risks and like experiences with an element of danger – although what they perceive to be “dangerous” might not actually be that risky. They are looking for excitement and are generally interested in culture, but do not want to sacrifice comfort in the process.

Top 3 responses that differ most from average rating scores out of 5.
Experience Samplers are motivated by adventure activities, especially American males. They lean toward soft adventure activities. They have a few activities they participate in regularly and are willing to do these during a trip. Australians are slightly more likely to participate in hard adventure activities.

**ADVENTURE AS PRIMARY TRIP MOTIVATOR**
- No
- Yes

**ACTIVITY EXPERIENCING**
- Usually try new activities
- Usually do just a few different activities
- Usually do the same activity

**ACTIVITY FREQUENCY**
- This was a one-off during a trip
- I do them every now and again
- I do them regularly

**ACTIVITY PARTICIPATION***
- USA
- AUS
- AVG

*Percentage of respondents who participated in this type of activity during a recent trip.*
Australian and American Experience Samplers are quite similar, except Australians prefer motorized sports, scuba diving and snorkeling more, and Americans prefer backpacking and birdwatching slightly more.

**TOP 5 HARD ACTIVITIES**

- Kayaking/sea/white water rafting: USA 22%, AUS 21%, AVG 20%
- Mountain biking: USA 20%, AUS 21%, AVG 19%
- Motorized sports: USA 17%, AUS 19%, AVG 19%
- Mountain/rock climbing: USA 19%, AUS 9%, AVG 19%
- Scuba diving: USA 17%, AUS 17%, AVG 21%

**TOP 5 SOFT ACTIVITIES**

- Camping: USA 36%, AUS 39%, AVG 36%
- Backpacking/hiking: USA 36%, AUS 33%, AVG 36%
- Snorkeling: USA 41%, AUS 36%, AVG 31%
- Horseback riding: USA 26%, AUS 29%, AVG 25%
- Bird watching: USA 26%, AUS 21%, AVG 23%
Experience Samplers like cultural activities about as much as the average traveler, with Australians enjoying immersive experiences more than Americans. Americans tend to do cultural activities more frequently in their daily lives and are more likely to say they learned a great deal as a result of a cultural trip.

**ACTIVITY FREQUENCY**
- A few times a year or less
- About once a week
- Once or twice a month
- More than once a week

**ACTIVITY PREFERENCES**
- USA
- AUS

Although Americans report a higher impact of cultural activities on their knowledge and worldview, they tend to actually participate less in these while traveling. This may be due to their propensity to do cultural activities more frequently in their daily lives (see previous page), leaving them to seek different experiences during a trip.
Experience Samplers are more likely than average to travel with their family (adults only) and less likely to travel with children. This may be due to their dichotomous age groups of 18-24 (single without children) and 45+ (married with older children). Their other behavior is relatively typical of the average adventure and cultural traveler.

*Totals may not equal 100% due to rounding.
EXPERIENCE SAMPLER: DREAMING

This group most frequently looks to friends and family for travel inspiration. Australian Experience Samplers are more likely to visit family members living abroad and are attracted by great deals on airfare. Americans are also motivated slightly more than average by great deals on accommodation.

TOP 5 TRAVEL INSPIRATION

- Friends and family: USA 51%, AUS 48%, AVG 55%
- Articles in travel magazines: USA 26%, AUS 31%, AVG 25%
- Social media sites/Channels: USA 24%, AUS 30%, AVG 27%
- Travel blogs: USA 24%, AUS 28%, AVG 25%
- Travel review sites: USA 26%, AUS 25%, AVG 29%

TOP 5 PRIMARY MOTIVATORS FOR LAST TRIP

- I always wanted to visit and finally had available time and/or budget: USA 27%, AUS 33%, AVG 32%
- It's on my bucket list, I wanted to visit before I got too old: USA 28%, AUS 31%, AVG 32%
- I wanted to visit family members living there: USA 20%, AUS 29%, AVG 20%
- There was a great deal on airfare: USA 16%, AUS 21%, AVG 25%
- There was a great deal on accommodation: USA 15%, AUS 19%, AVG 17%
As with other traveler segments, friends and family and review sites were Experience Samplers’ most important information sources for planning their last trips. They can particularly be targeted through social media, travel blogs and airline/hotel/attraction websites. American Experience Samplers are more likely to use social media and Australians are more likely to turn to friends and family and travel review sites.

EXPERIENCE SAMPLER: SPOTLIGHTS

This segment comprises both single Millennials and the middle-aged woman and her spouse. Millennials are much more likely to use Snapchat and somewhat less likely to use Facebook, but Facebook, YouTube, and Instagram are the primary channels across all age groups. When it comes to influential websites, the older groups relies more on TripAdvisor while the younger group uses Airbnb more.
EXPERIENCE SAMPLER: RECOMMENDATIONS

Experience Samplers see themselves as explorers. They like to sample a variety of both adventure and cultural activities and want to share those experiences on social media. They place less value on enriching their knowledge through travel than on getting the most out of the trip and maximizing their experience.

GENERAL PRODUCT RECOMMENDATIONS
Experience Samplers see themselves as explorers and risk takers, but also desire a level of safety in their experiences. They like to sample both adventure and cultural activities. They seek:

- Itineraries that mix both culture and soft adventure activities;
- Tour operators adhering to social and environmental standards;
- Village based activities that do not involve staged performances but rather authentic interactions;
- Adventure activities: camping, horseback riding, kayaking/white water rafting or scuba diving; and
- Cultural activities: Indigenous or tribal village home stays, cultural festivals, local language classes or archeology field trips.

GENERAL MARKETING RECOMMENDATIONS
- Market experiences that mix adventure and cultural activities together to this segment.
- Connect with them emotionally by emphasizing the newness and excitement of the experiences they can have in unexplored destinations.
- As they are active users, leverage social media with a focus on YouTube for both groups, Snapchat for the younger group and Facebook for the older group.
CULTURAL EXPLORERS PROFILE
Cultural Explorers are older travelers (55+ years old) and just slightly more male. The majority are in middle income households and are more highly educated than average. This segment is very frequently married and living with their spouse (no children in the house) or sometimes alone.

Cultural Explorers are very interested in learning new things and actively seeking new experiences. They are not risk takers nor competitive, and enjoy nature and scenery more than average.

Cultural Explorers are the most interested in engagement with cultural experiences and enriching their knowledge. This segment looks for destinations where the culture and lifestyle is different from their own and do not mind a language barrier.

Spend per trip based on median of survey responses

CULTURAL EXPLORER: PERSONALITY PROFILE

Cultural Explorers want to have new experiences and learn new things, while enjoying nature and taking the time to contemplate life. Cultural Explorers rate lower than average on social media use, luxury product enjoyment and factors related to risk, winning and danger. They appreciate the overall experience from travel.

VIEW OF SELF

- Frequent social media user: 41% (Cultural Explorer) vs. 50% (Average Traveler)
- Willing to take risks: 27% (Cultural Explorer) vs. 35% (Average Traveler)
- Enjoy owning luxurious products: 22% (Cultural Explorer) vs. 32% (Average Traveler)
- Focused on winning: 19% (Cultural Explorer) vs. 27% (Average Traveler)
- Drawn to experiences with some danger: 11% (Cultural Explorer) vs. 20% (Average Traveler)

 BENEFITS OF ADVENTURE TRAVEL

- Nature & scenery: 4.45 (Cultural Explorer) vs. 4.18 (Average Traveler)
- Deeper contemplation of life: 3.99 (Cultural Explorer) vs. 3.79 (Average Traveler)
- Overall experience from travel: 4.36 (Cultural Explorer) vs. 4.15 (Average Traveler)

 BENEFITS OF CULTURAL TRAVEL

- Nature & scenery: 4.38 (Cultural Explorer) vs. 4.17 (Average Traveler)
- Overall experience from travel: 4.46 (Cultural Explorer) vs. 4.24 (Average Traveler)
- Fun, thrill & excitement: 3.67 (Cultural Explorer) vs. 3.75 (Average Traveler)

Top 3 responses that differ most from average rating scores out of 5.
CULTURAL EXPLORER: ADVENTURE ACTIVITY PARTICIPATION

Cultural Explorers are not very motivated by adventure activities and do not care for hard adventure. They do a few different activities every now and again, and Americans in particular are willing to do some soft adventure activities.

**ADVENTURE AS PRIMARY TRIP MOTIVATOR**

- No
- Yes

**ACTIVITY EXPERIENCING**

- Usually try new activities
- Usually do just a few different activities
- Usually do the same activity

**ACTIVITY FREQUENCY**

- This was a one-off during a trip
- I do them every now and again
- I do them regularly

**ACTIVITY PARTICIPATION***

*Percentage of respondents who participated in this type of activity during a recent trip.

---

*USA* | *AUS* | *AVG*
---|---|---
HARD ADVENTURE | 12% | 6% | 45%
SOFT ADVENTURE | 33% | 27% | 28%

---

**ACTIVITY EXPERIENCING**

- Usually try new activities
- Usually do just a few different activities
- Usually do the same activity

**ACTIVITY FREQUENCY**

- This was a one-off during a trip
- I do them every now and again
- I do them regularly

---

*USA* | *AUS* | *AVG*
---|---|---
HARD ADVENTURE | 33% | 17% | 33%
SOFT ADVENTURE | 54% | 64% | 50%
CULTURAL EXPLORER: ADVENTURE ACTIVITY PARTICIPATION

Cultural Explorers are below average on almost every hard activity, although Americans will go kayaking and off-road buggy riding and Australians will try mountain biking. American Cultural Explorers appreciate a hike, and both like snorkeling and birdwatching, but otherwise they are not very enthused about physical adventure activities.
CULTURAL EXPLORER: CULTURAL ACTIVITY PARTICIPATION

Cultural Explorers travel to learn, especially Americans. They seek destinations with different lifestyles and languages and prefer to support local communities and operators. This segment is most likely to report a significant impact of cultural activities on their worldview. Australians in particular prefer immersive experiences.

**Activity Preferences**

- **Report significant impact of cultural activities on worldview**
  - USA: 71%
  - AUS: 52%
  - AVG: 59%
- **Seek out destinations with different lifestyles**
  - USA: 55%
  - AUS: 58%
  - AVG: 51%
- **Learned a great deal as a result of a cultural trip**
  - USA: 63%
  - AUS: 37%
  - AVG: 49%
- **Willing to visit a destination despite language difficulties**
  - USA: 62%
  - AUS: 67%
  - AVG: 57%
- **Prefer to support local communities and operators**
  - USA: 55%
  - AUS: 54%
  - AVG: 49%

**Activity Frequency**

- A few times a year or less
- About once a week
- Once or twice a month
- More than once a week
Cultural Explorers rank either average or above average on all cultural activities. They particularly enjoy visiting well-known historic sites and architecturally significant buildings, and want to learn about the traditions of an area.
Cultural Explorers tend to book all trip elements themselves, have a longer planning horizon, and make their own travel decisions. Australians in particular are more likely than average to travel on their own.

**BOOKING BEHAVIOR**
- Mix of the two
- Booked a package
- Booked all elements myself

**TRAVEL COMPANIONS**
- As part of a tour group
- With my family, adults only
- With friends
- On my own
- In a couple
- With my family, including children

**PLANNING HORIZON**
- More than 12 months
- 9-12 months
- 5-8 months
- 1-4 months
- 1-4 weeks
- A week or less

(time taken to finalize itinerary and book once destination selected)
CULTURAL EXPLORER: DREAMING

Cultural Explorers most frequently look to friends and family for travel inspiration, but also watch travel shows on TV and turn to travel agents/tour operators. This group has dreamed of traveling for a long time and finally have the time and budget to go. Australians in particular have trips on their bucket list.

CULTURAL EXPLORER: LAST TRIP PLANNING

For Australians, as with other traveler segments, friends and family were the most important information sources for planning Cultural Explorers’ last trips. Americans are much less likely to turn to friends and family and more likely to look to travel magazines and travel blogs. Review sites are less popular than average, but Australians do like guidebooks and their associated websites.

TOP 5 PLANNING TOOLS FOR LAST TRIP

- Friends and family
- Travel review sites
- Articles in travel magazines
- Guidebooks and associated websites
- Travel blogs
Cultural Explorers are of average likelihood to take all kinds of specialty trips, although Australians are less interested in multiple types of adventure or food-focused vacations.
CULTURAL EXPLORER: SPOTLIGHTS

This segment is made up of older travelers, often empty nesters with their spouse or alone. Within the segment, those aged 55-64 are more likely to use social media than their older counterparts, who lean toward tour operator websites and the destination’s official website.

### INFLUENTIAL SOCIAL MEDIA CHANNELS

- **Facebook**: 79% (55-64), 77% (65+)
- **YouTube**: 60% (55-64), 55% (65+)
- **Instagram**: 39% (55-64), 23% (65+)
- **Pinterest**: 27% (55-64), 17% (65+)
- **Twitter**: 19% (55-64), 10% (65+)
- **Snapchat**: 11% (55-64), 7% (65+)

### INFLUENTIAL WEBSITES

- **tripadvisor.com**: 61% (55-64), 61% (65+)
- **Tour operator website**: 10% (55-64), 37% (65+)
- **Destination’s official website**: 15% (55-64), 27% (65+)
- **airbnb.com**: 20% (55-64), 11% (65+)
- **lonelyplanet.com**: 18% (55-64), 13% (65+)
- **travelchannel.com**: 14% (55-64), 5% (65+)
CULTURAL EXPLORERS: RECOMMENDATIONS

Cultural Explorers do not want to take risks and are most likely to be motivated by checking things off their bucket list or have dreamed about a trip for a long time and finally have the resources to go. While they are not interested in hard adventure, they are willing to mix in some light hiking and birdwatching to their culture-focused trip.

GENERAL PRODUCT RECOMMENDATIONS
Cultural Explorers are most likely motivated by checking items of their bucket list or fulfilling a dream to visit a destination. They primarily want to experience culture, but are willing to mix some soft adventure activities. They seek:

▪ Short excursions into a local community for low-risk interactions and time to relax after;
▪ Opportunities to learn from local guides and interact with local people;
▪ Traditional and comfortable lodging;
▪ Adventure activities: light hiking and birdwatching; and
▪ Cultural activities: cooking classes, craft classes and visits to historic sites.

GENERAL MARKETING RECOMMENDATIONS

▪ Market experiences that emphasize authentic engagement with culture in a friendly and welcoming way.
▪ Connect with them emotionally by addressing their desire to enrich their knowledge and learn through travel.
▪ Provide detailed information about travel experiences and cultures to allow them to actively research destinations prior to travel.
▪ Focus on traditional media such as Travel & Leisure (US) and Get up & Go (Australia), as they are not active social media users.
ANNEX 1: CONTACT & STANDARDS

The information and data found in this report are current as of August 2019 and subject to change given market forces and external variables. The report is meant to serve as a research benchmark into the travel perceptions, attitudes and behaviors of identified and defined American and Australian cultural and adventure travel consumers, not an academic research report.

ATTA and subcontractors subscribe to the standards of the World Association of Opinion and Marketing Research Professionals (ESOMAR). ESOMAR sets minimum disclosure standards for studies that are released to the public or the media. The purpose is to maintain the integrity of market research by avoiding misleading interpretations.

ANNEX 2: METHODOLOGY

A total of 2,514 identified international travel consumers from USA (1,239) and Australia (1,275) were surveyed through an online primary survey between April 30 and May 17, 2019. An additional digital listening component evaluated 800 million social media posts.

ANALYSIS

- Conducted standard quantitative analysis of demographic and attitudinal indicators
- Used digital listening to evaluate 800 million posts on social media
- Performed cluster analysis to identify response patterns as they relate to personality attributes
- Analyzed two dimensions to learn how each experience impacts perceptions of a destination

OUTCOMES

- UNCOVERED FOUR SEGMENTS
  The analysis revealed that many of the psychographic characteristics we measured were correlated in four main clusters and related to distinct travel preferences, personal priorities and values, which also aligned with future travel behavior. These clusters were translated into four traveler segments, with three target groups highlighted in more detail.

- DEVELOPED A COMPREHENSIVE TRAVEL PROFILE FOR EACH SEGMENT
  - Demographics
  - Personality profile
  - Travel influences
  - Key media
  - Adventure and cultural activity preferences
  - Travel planning and booking behaviors
  - Spending
  - Future travel destinations

- DEVELOPED SPECIFIC, PRACTICAL RECOMMENDATIONS FOR PRODUCT DEVELOPMENT AND MARKETING
ANNEX 3: ADVENTURE ACTIVITY CLASSIFICATION

Throughout the report, the categories of “hard adventure activities” and “soft adventure activities” are defined as follows.

<table>
<thead>
<tr>
<th>HARD ADVENTURE ACTIVITIES</th>
<th>SOFT ADVENTURE ACTIVITIES</th>
