The External Review included 26 non-Policy actions for IFC/MIGA to implement, which IFC/MIGA clustered into the following thematic areas:

A. Improving systems and procedures, including Environmental and Social Review Procedures (ESRP);

B. Enhancing project-level grievance mechanisms to better handle complaints;

C. Strengthening how IFC/MIGA handle CAO and non-CAO complaints at an earlier stage;

D. Clarifying IFC’s application of E&S requirements for financial intermediaries;

E. Providing greater clarity on criteria related to supply chains;

F. Mainstreaming contextual risk assessment in due diligence and supervision; and

G. MIGA-specific areas.
Enabling Remedial Solutions: Approach

- Review elements and leverage for enabling remedial solutions within the current IFC/MIGA Sustainability Frameworks
- Review the experience of and lessons from existing and planned approaches of other entities, relevant to IFC/MIGA’s business model
- Judicial and non-judicial mechanisms
- Remedy Options
Enabling Remedial Solutions: Stakeholder Consultation

IFC/MIGA will be conducting informal consultations throughout the process with stakeholders while closely consulting with CAO.

Stakeholder consultations on the ‘Issues and Options’ paper is planned for the beginning of Q3 of FY22, informing recommendations to be submitted to IFC/MIGA Boards in Q3 of FY22.
